MOHD ARIF

Data Analyst | Business Analyst | Python & SQL Specialist

mohammadarif5761@gmail.com | (+91) 8573991870 | github.com/mohdarif1234 | linkedin.com/in/arifmohd5761

PROFESSIONAL SUMMARY

Results-oriented Computer Science graduate (B.Tech, CGPA 8.25) with hands-on expertise in Python, SQL, Pandas, NumPy, and Excel. Demonstrated ability to analyse large datasets, build interactive dashboards, and deliver actionable business insights. Seeking a Data Analyst / Business Analyst role at Wipro to leverage analytical skills and contribute to data-driven decision-making in enterprise environments.

TECHNICAL SKILLS

Languages	Python, SQL, C, Basic Java, JavaScript	**Data & Analytics**	Pandas, NumPy, Matplotlib
Database	MySQL, SQL querying & reporting	**Visualisation**	Excel (Pivot, Power Query), Streamlit
Web / Tools	HTML, CSS, Basic React, Vite, VS Code	**Productivity**	MS Word, PowerPoint, Canva, GitHub

PROJECTS

Sales Analysis Dashboard – Ferns and Petals (FNP)

Microsoft Excel

- Engineered an interactive Excel dashboard using Power Query, Pivot Tables, dynamic Charts, and Slicers to visualise over 1,000 orders and ₹35.2L in revenue.
- Identified top-performing cities, best-selling products, and peak seasonal trends (Raksha Bandhan, Valentine's Day), directly informing marketing strategy.
- Delivered actionable insights that reduced manual reporting time and improved stakeholder decision-making efficiency.
- Applied data-cleaning techniques via Power Query to ensure 100% data accuracy before analysis.

Customer & Product Analytics – Python EDA

Python | Pandas | Seaborn

- Performed exploratory data analysis (EDA) on retail datasets using Pandas and NumPy to uncover customer purchasing patterns and revenue drivers.
- Visualised KPIs with Matplotlib and Seaborn; produced insight reports consumed by mock business stakeholders.
- Wrote optimised SQL queries against a MySQL database to extract segment-level summaries and validate Python analysis results.

Interactive Data Web App

Python | Streamlit

- Built a Streamlit-based web application to upload CSV datasets and auto-generate summary statistics and visual charts in real time.
- Enabled non-technical users to explore data through an intuitive browser interface, reducing dependency on manual Excel reporting.

EDUCATION

B.Tech – Computer Science & Engineering — **CGPA: 8.25 / 10**

KMCLU, Lucknow

Class XII – AMU Board — *2020*

Aligarh Muslim University

KEY COMPETENCIES & SOFT SKILLS

- Data Cleaning & Wrangling
- Statistical Analysis
- Dashboard Design
- Business Intelligence Reporting
- Problem Solving & Critical Thinking
- Agile / Collaborative Work Ethic
